

0

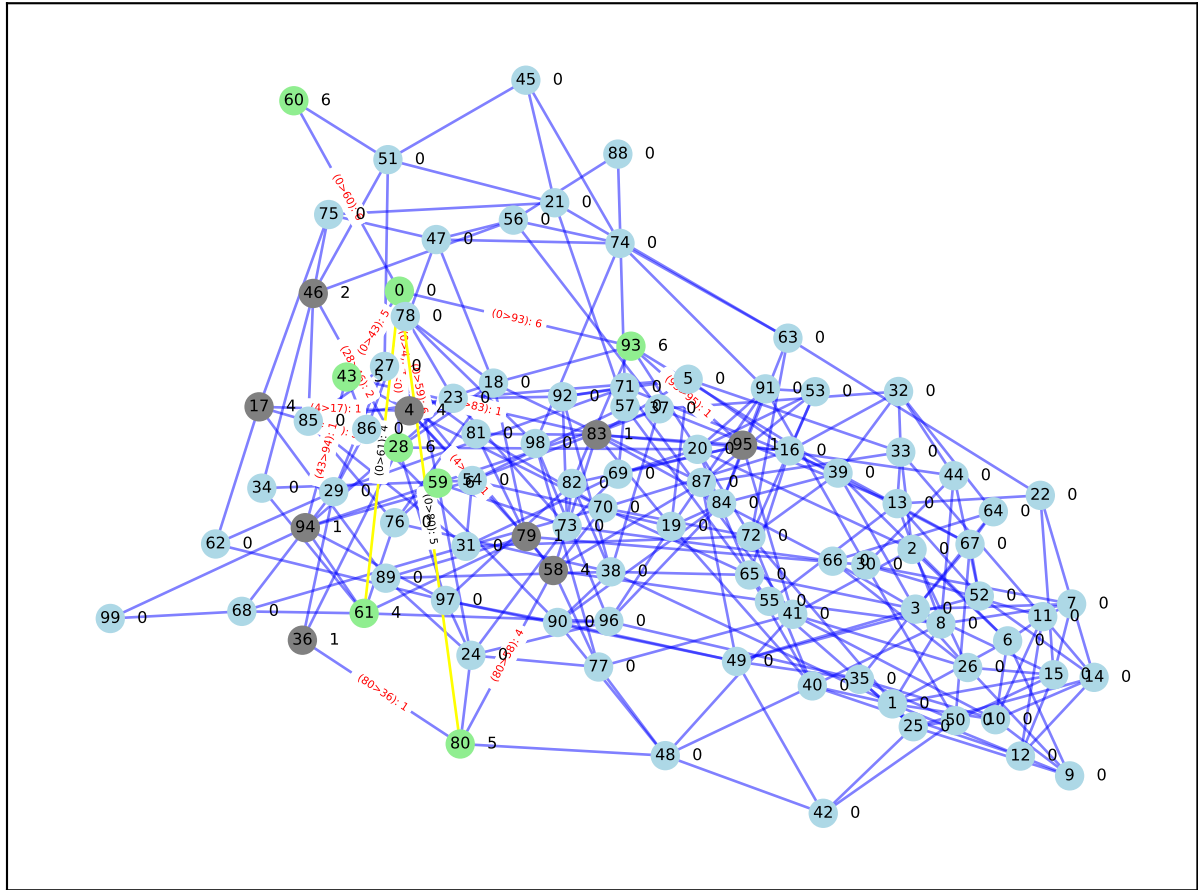

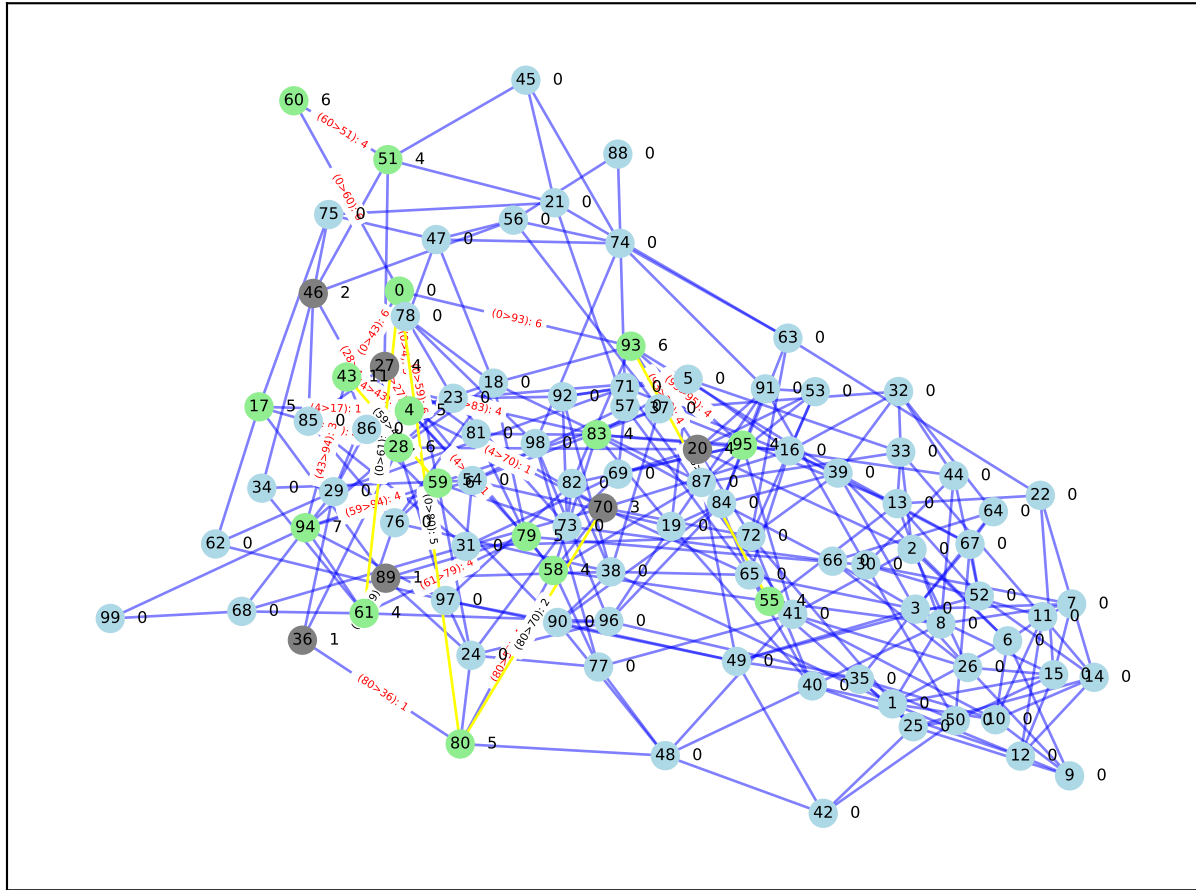

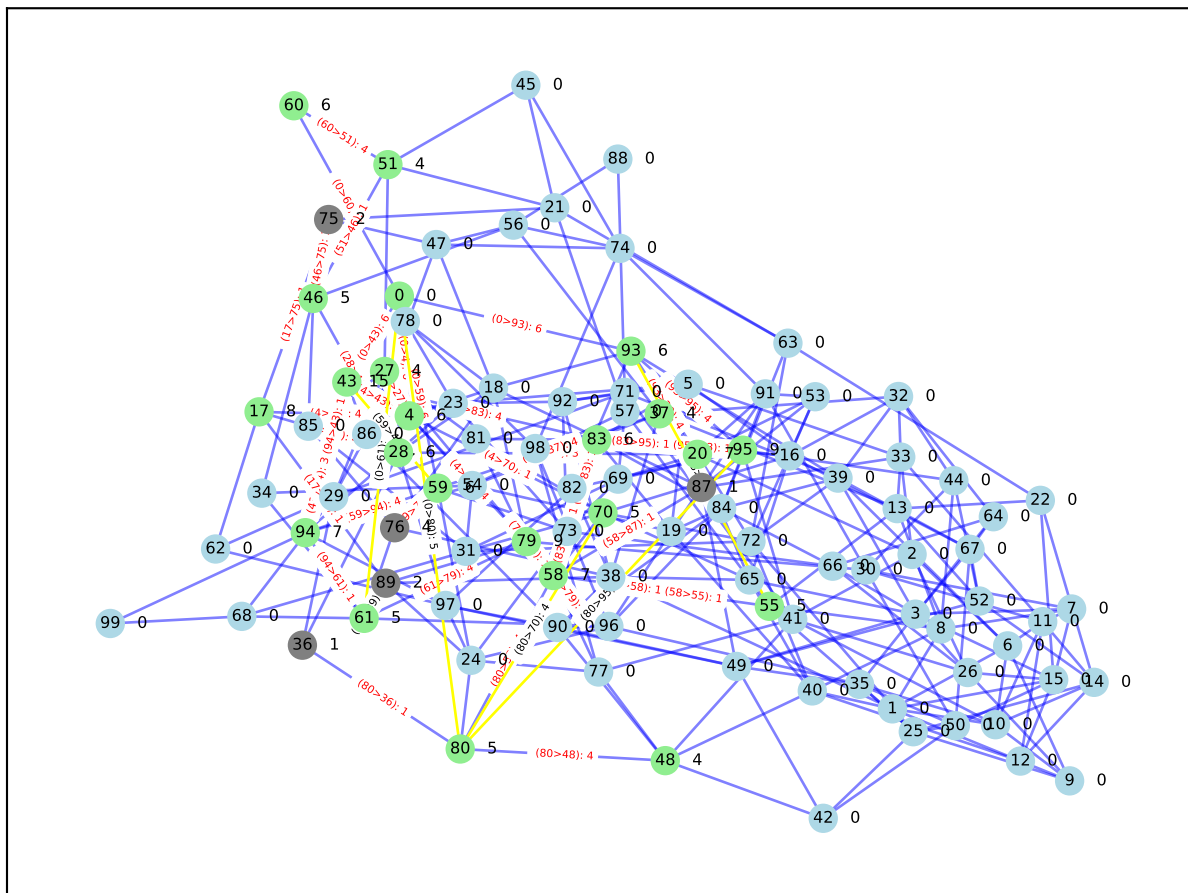

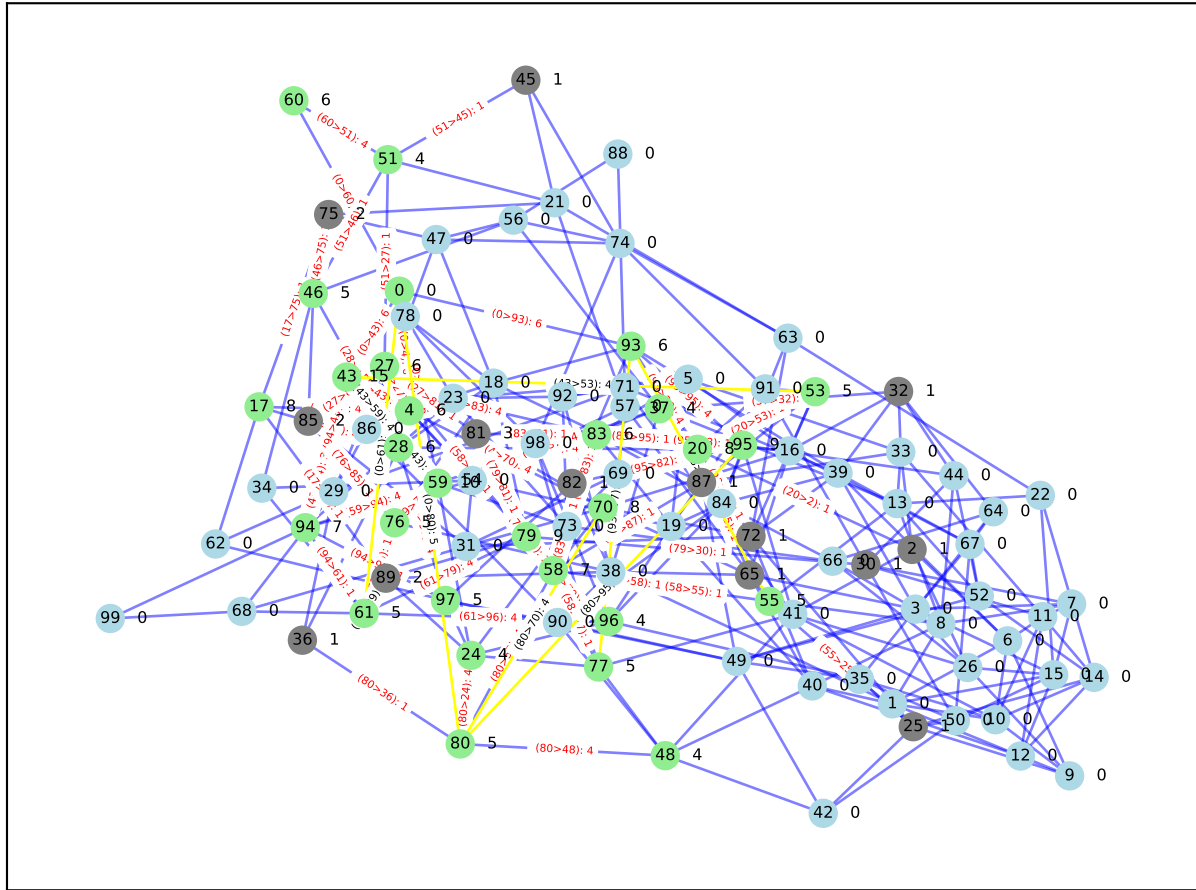

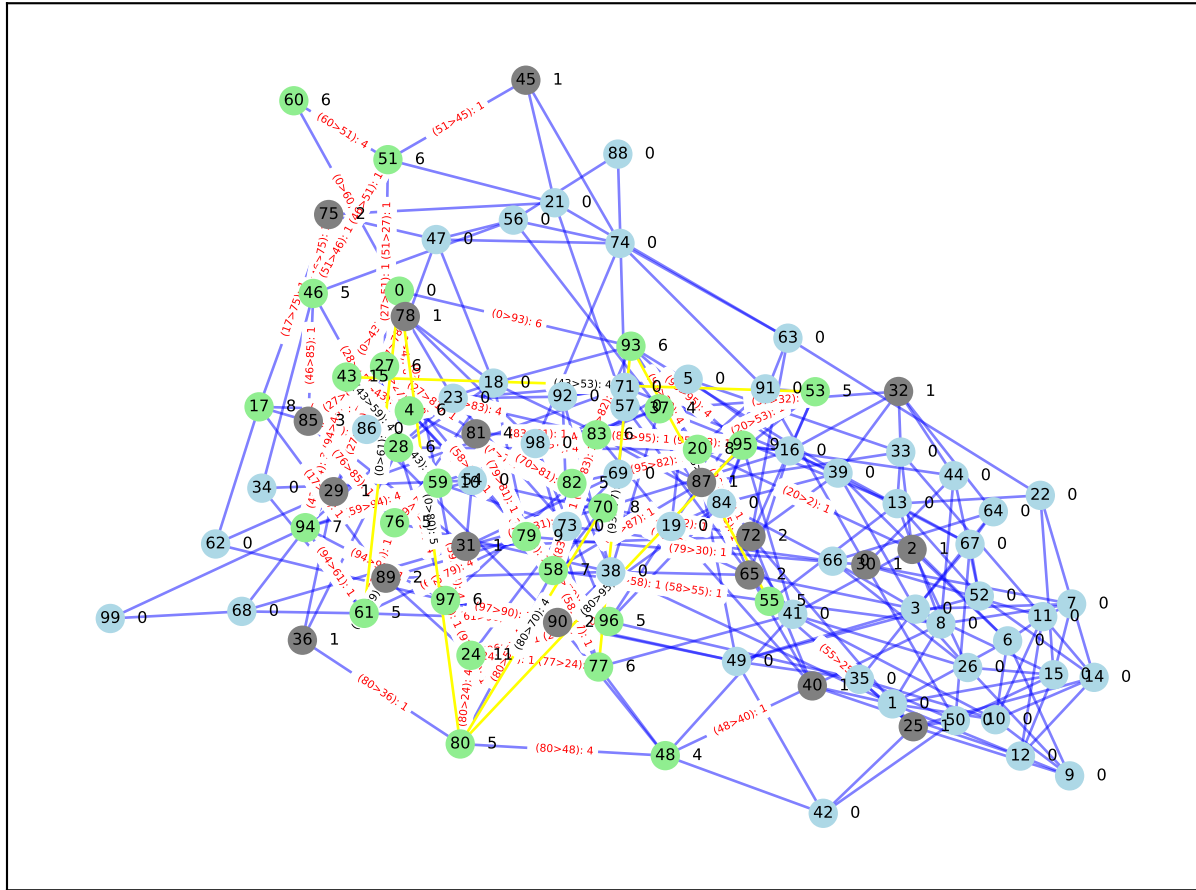

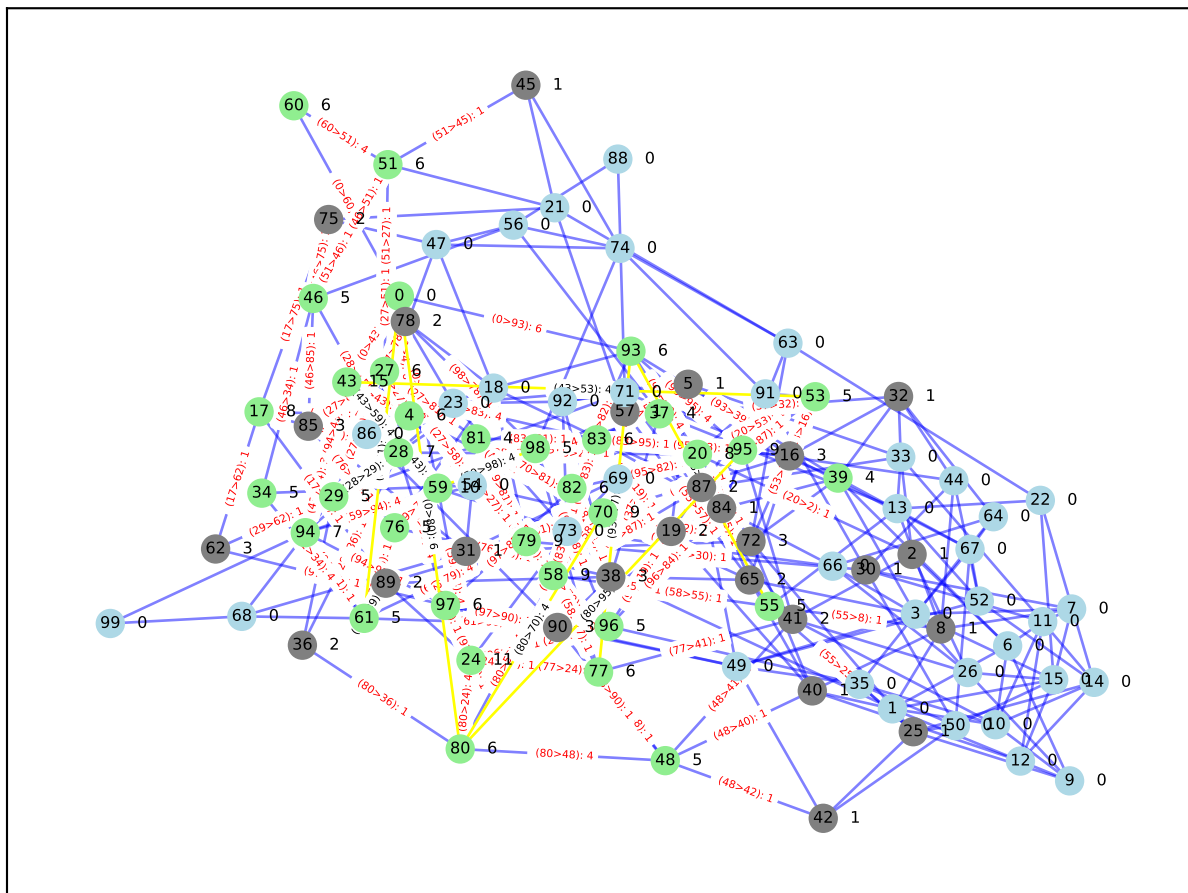

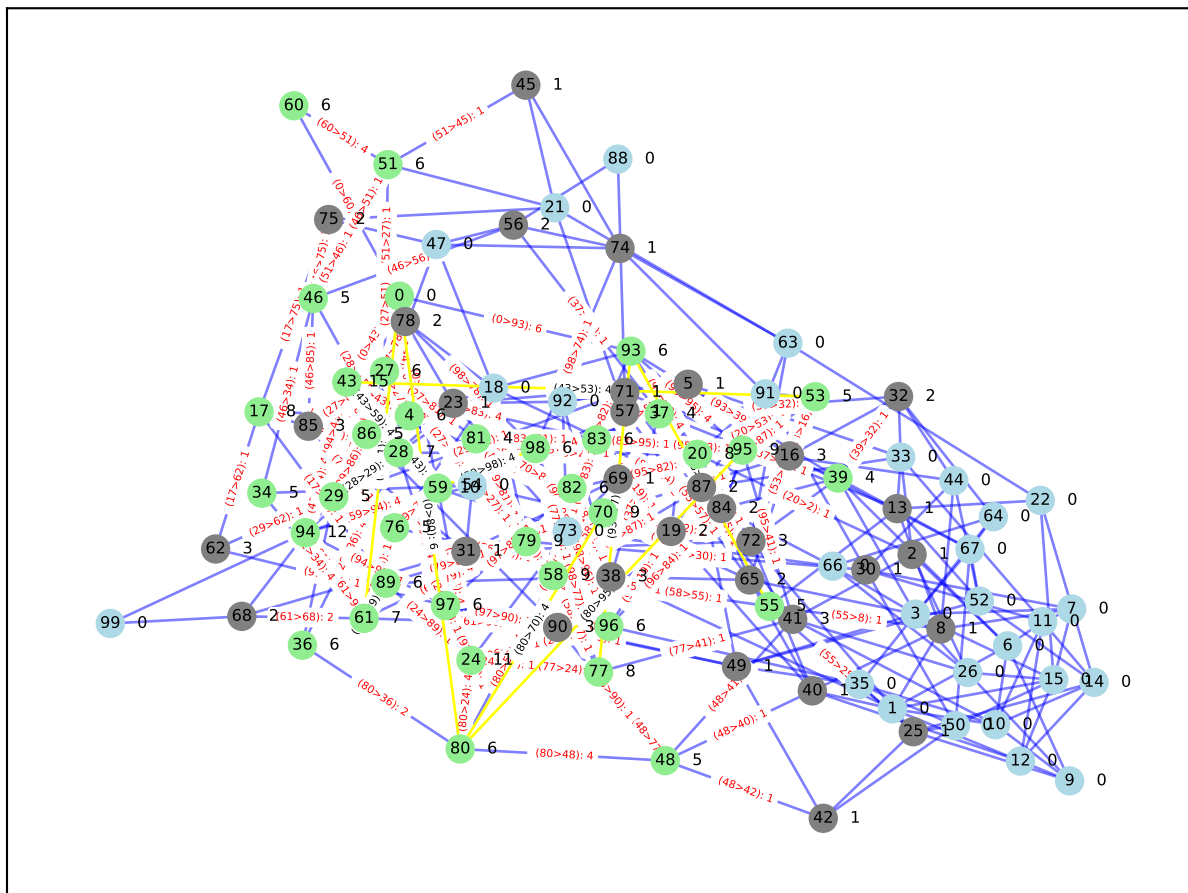

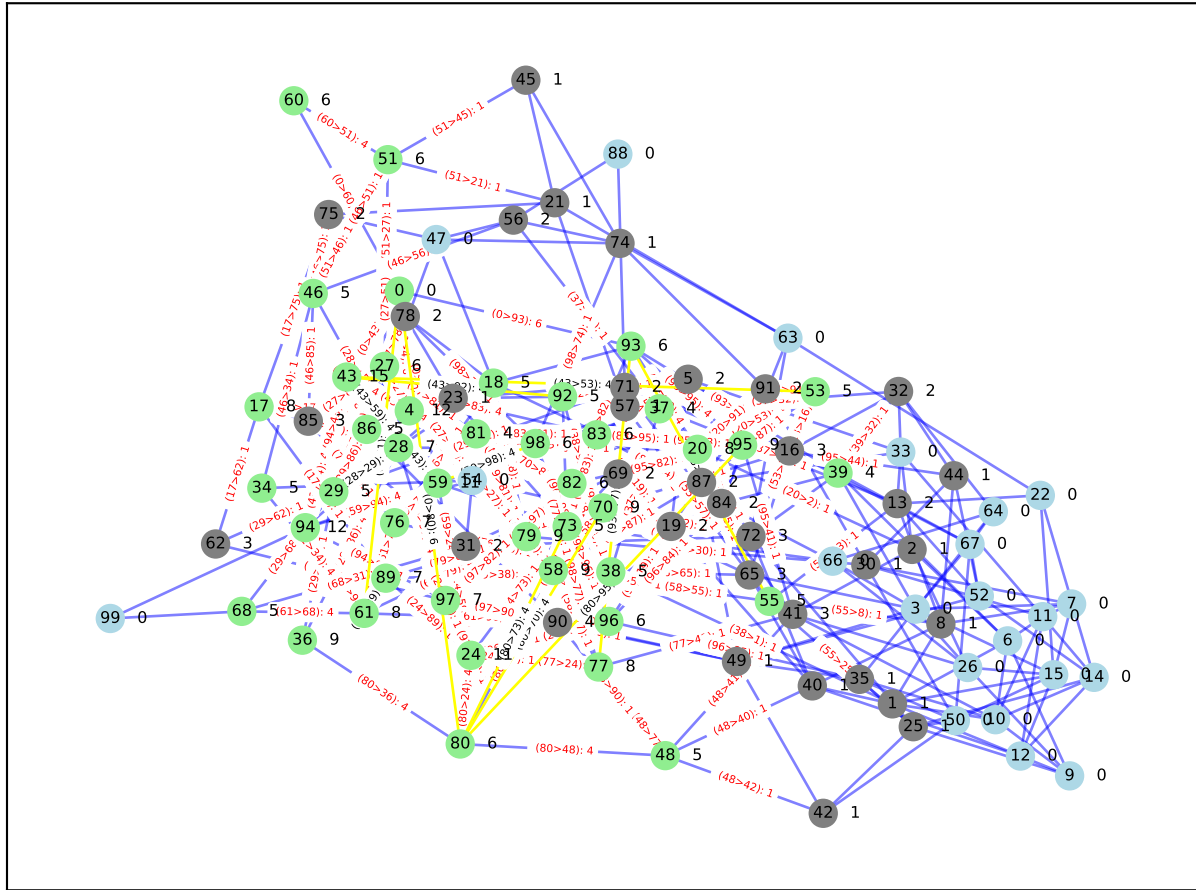

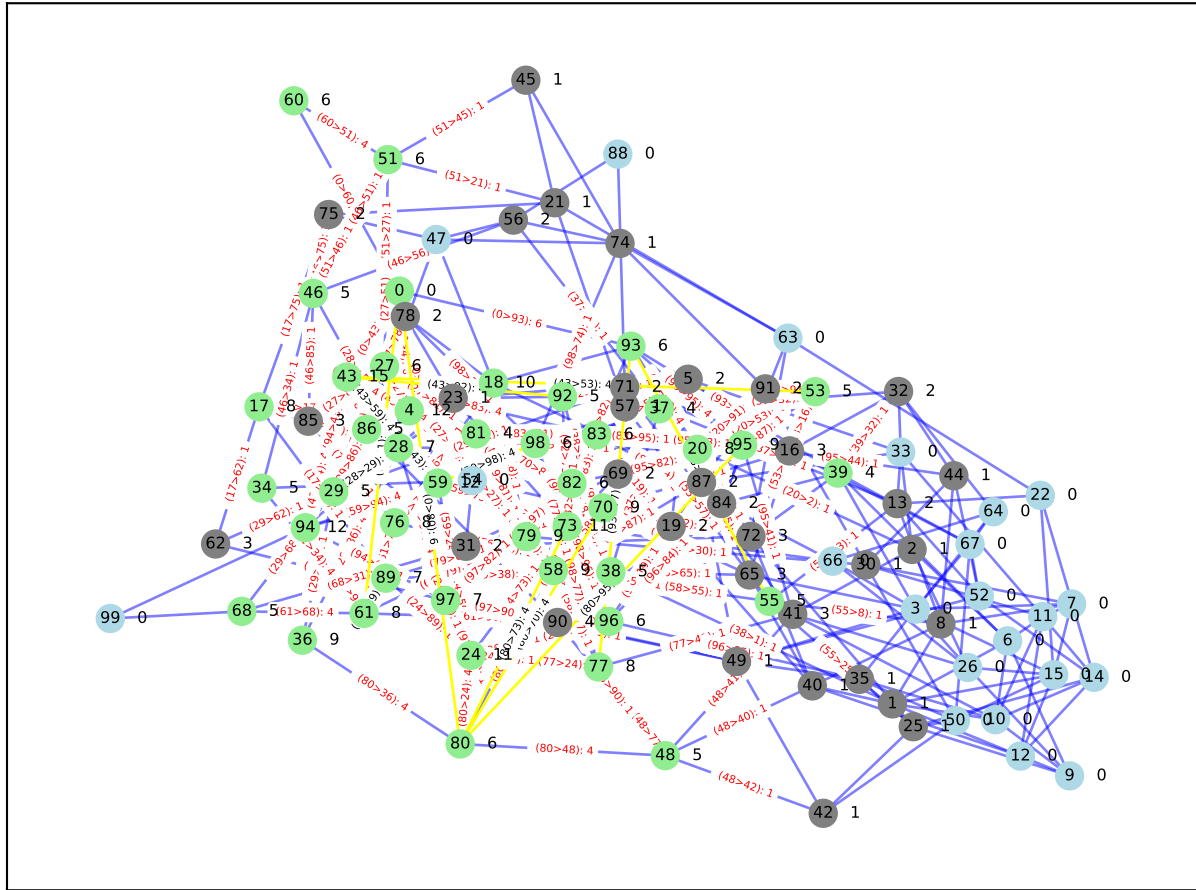

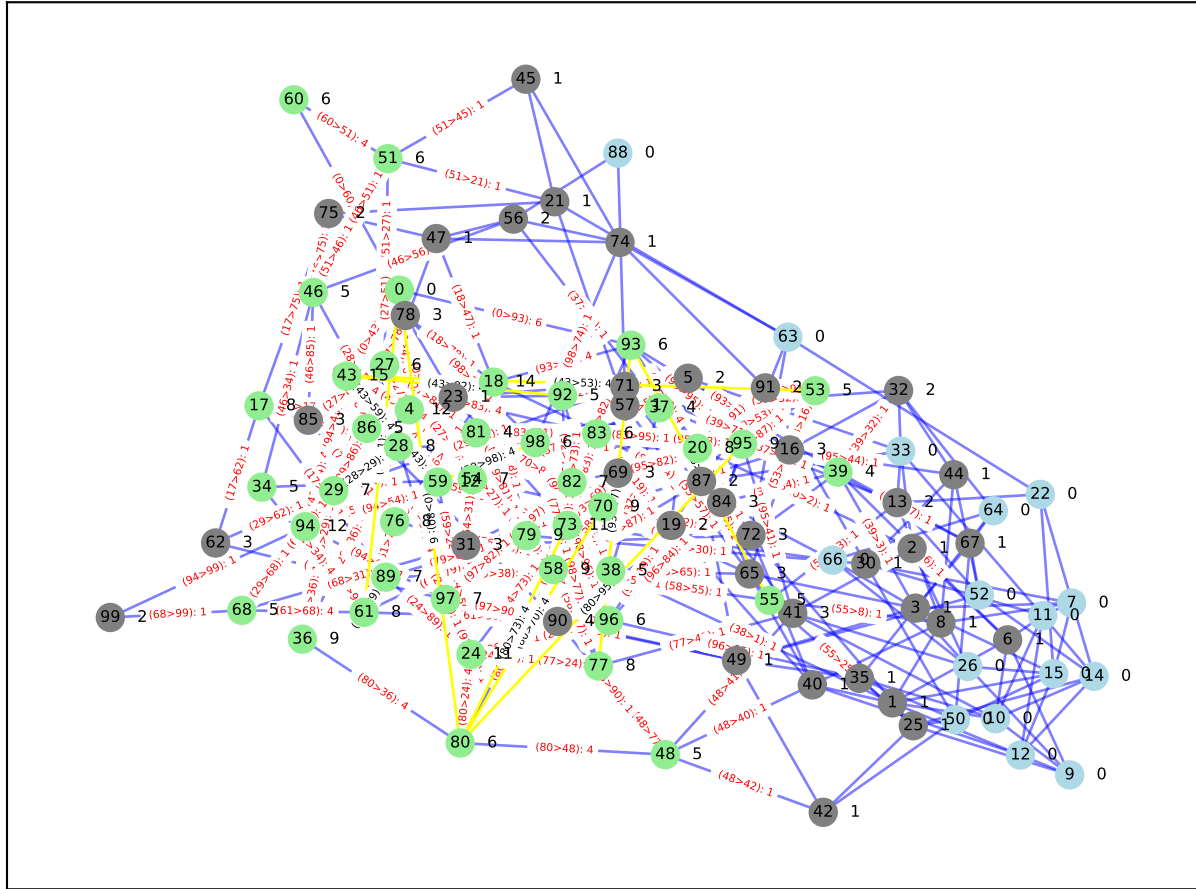

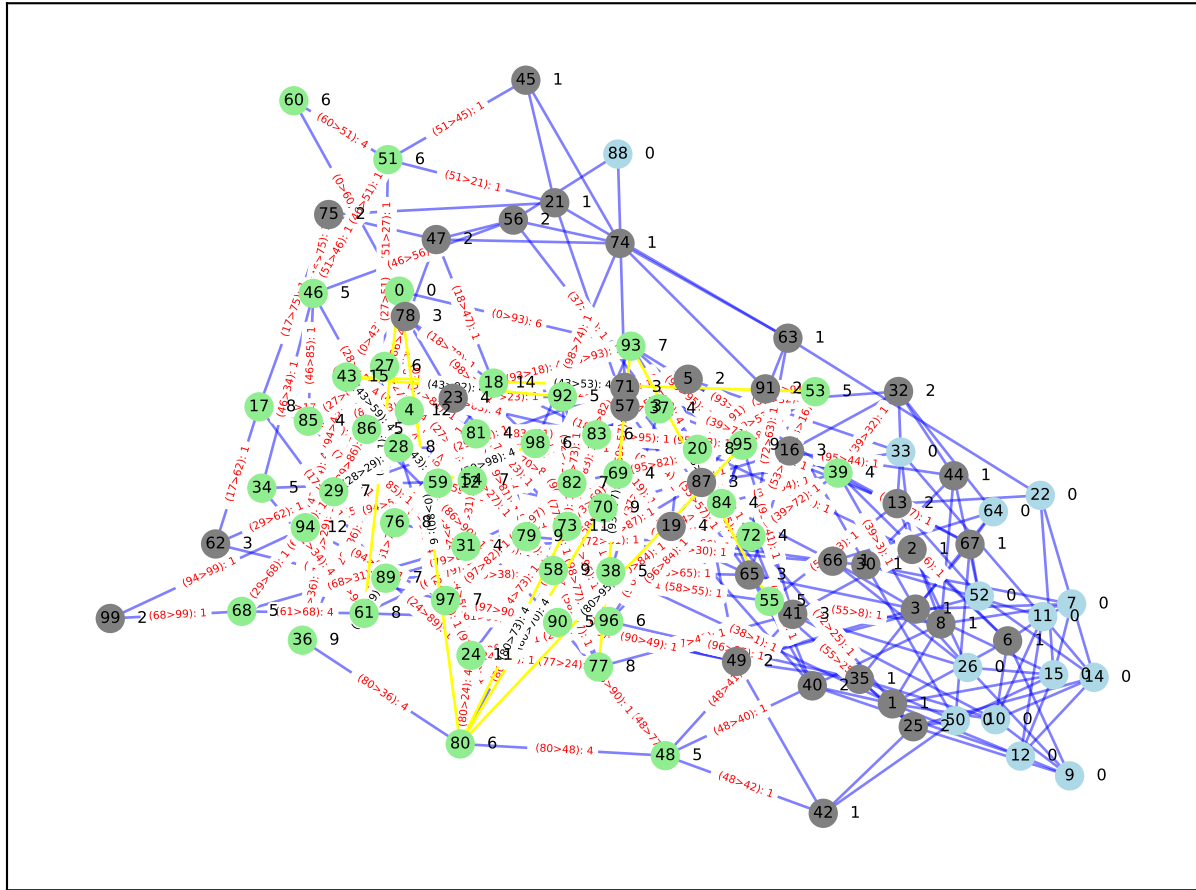

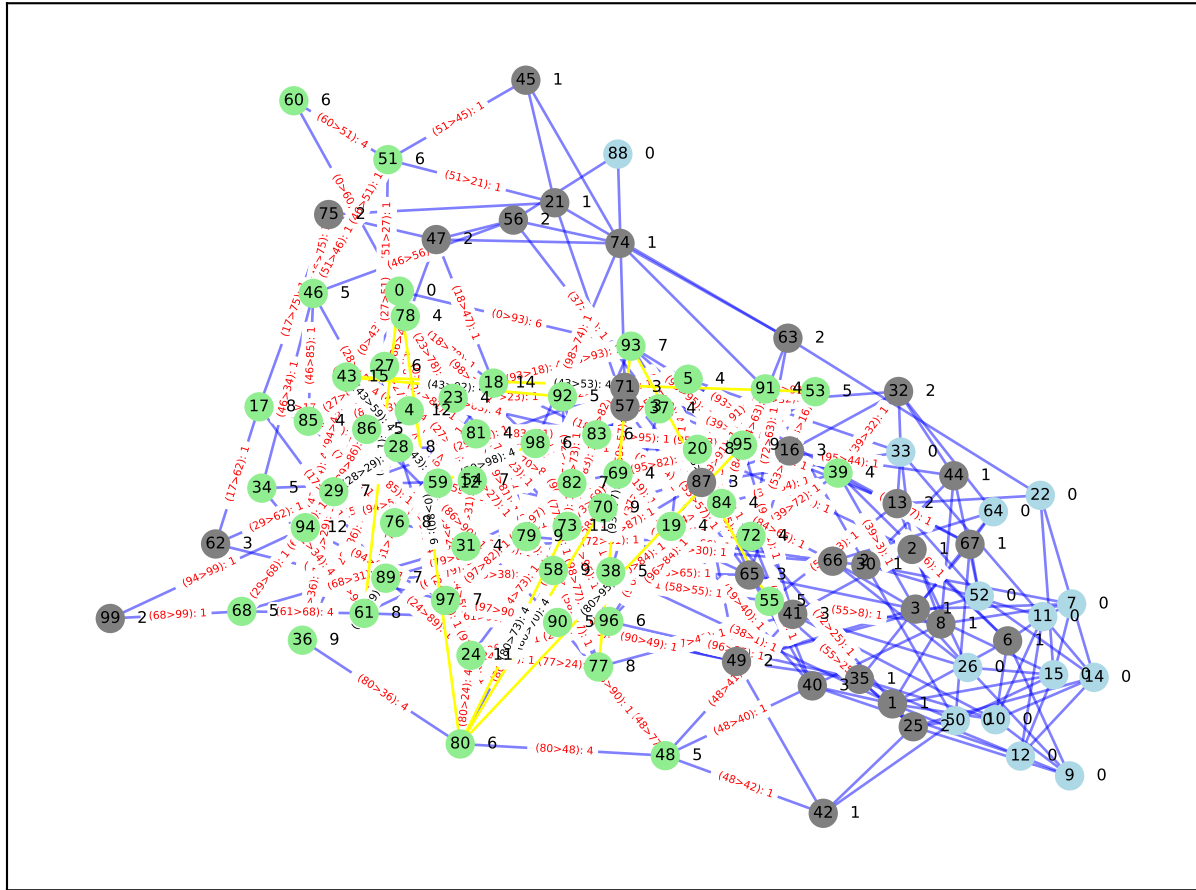

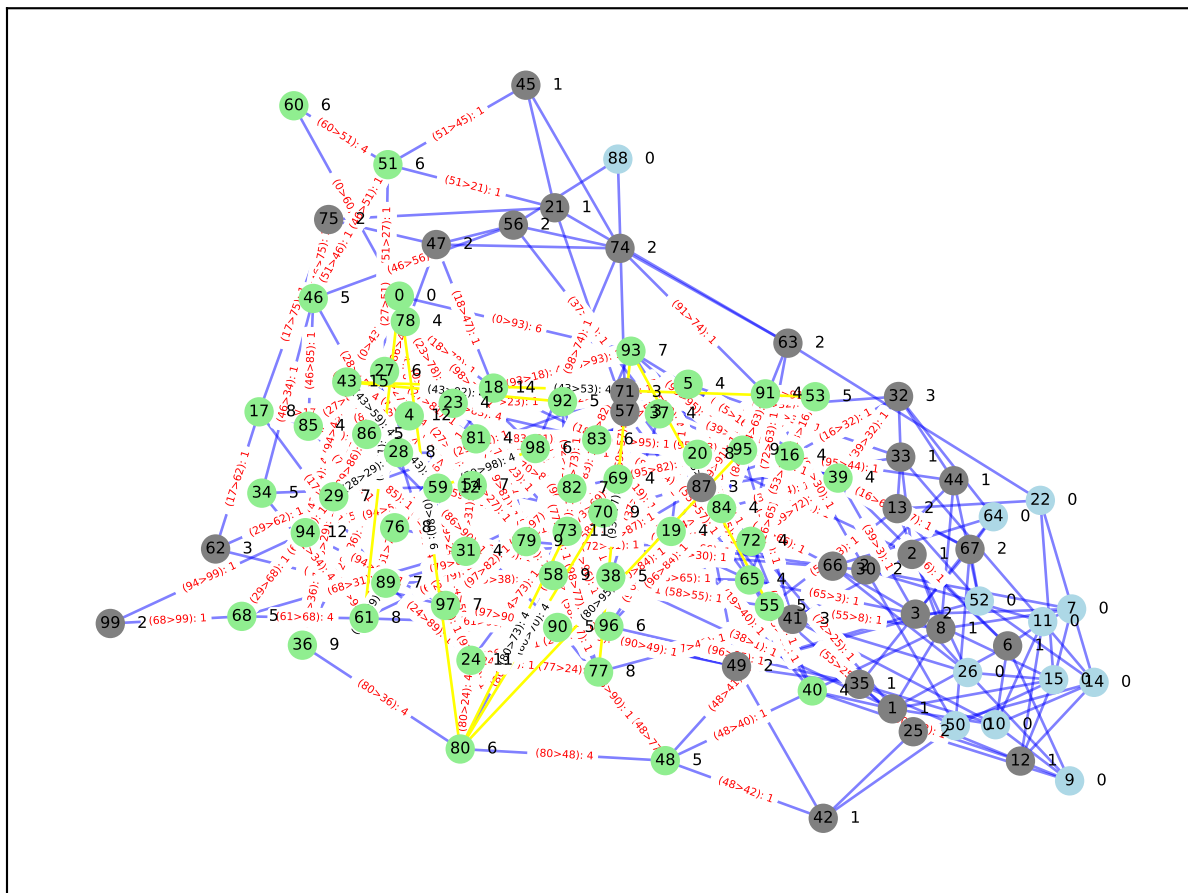

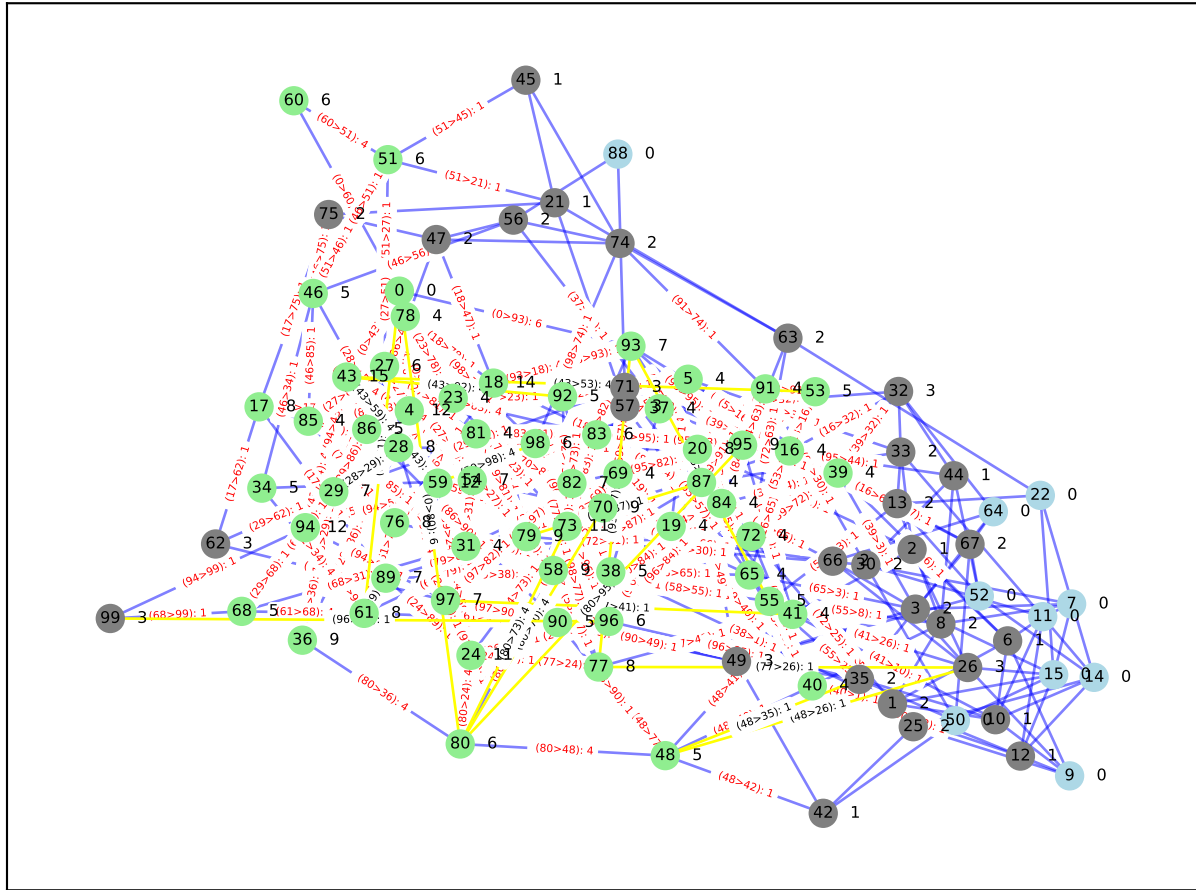

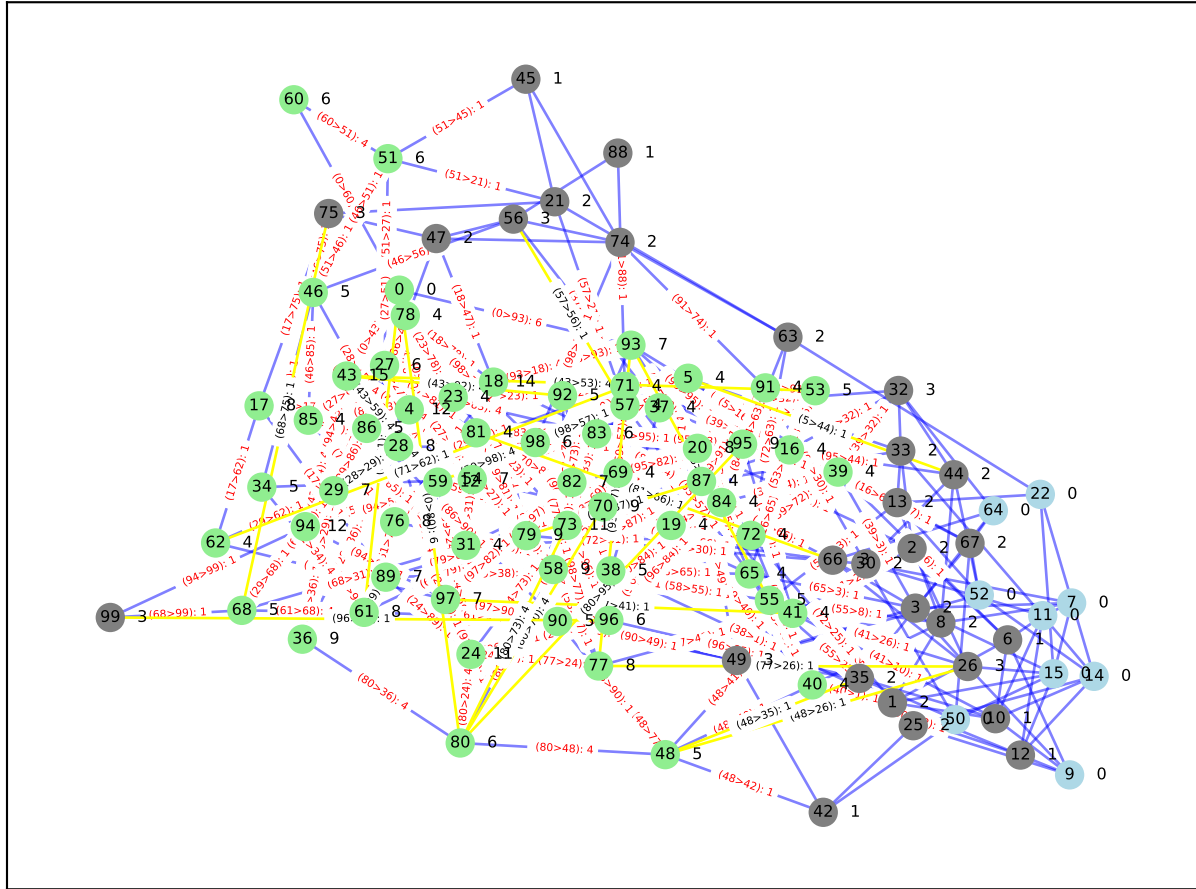

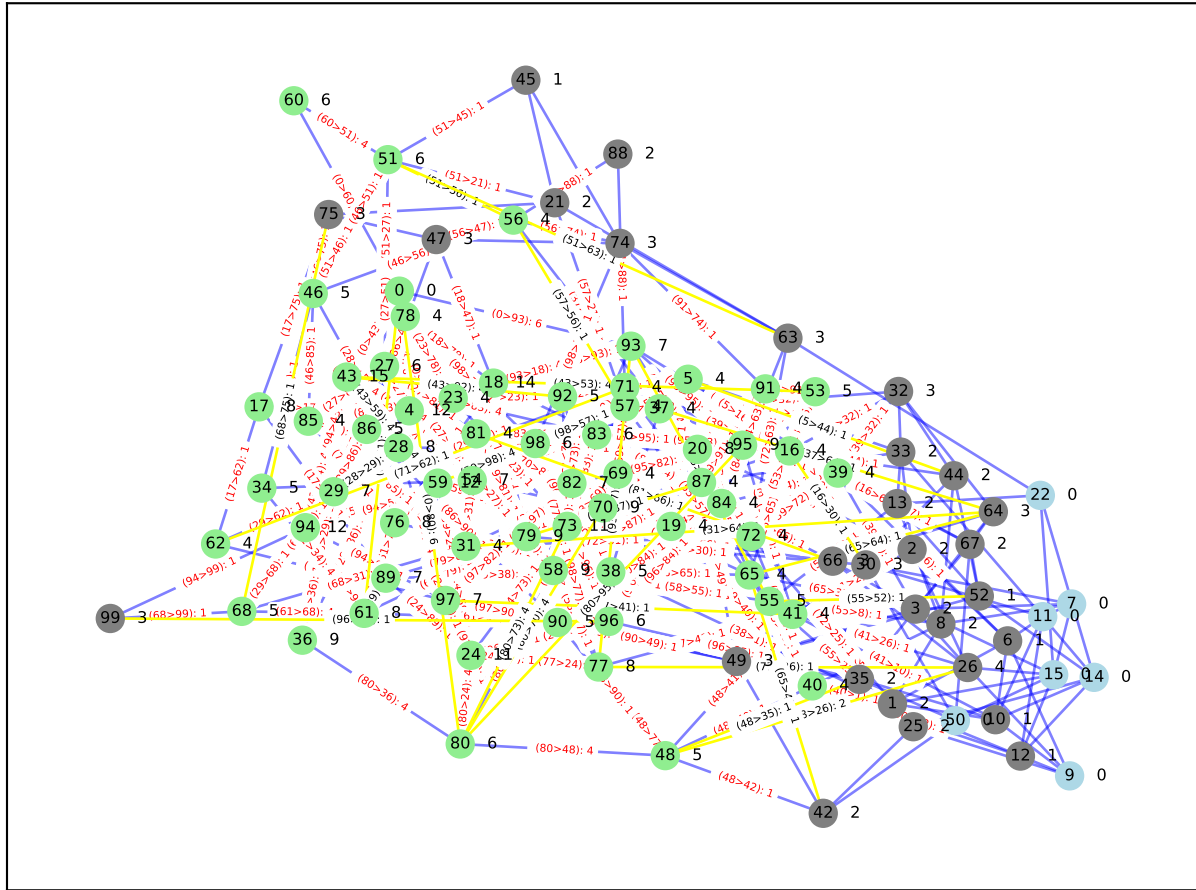

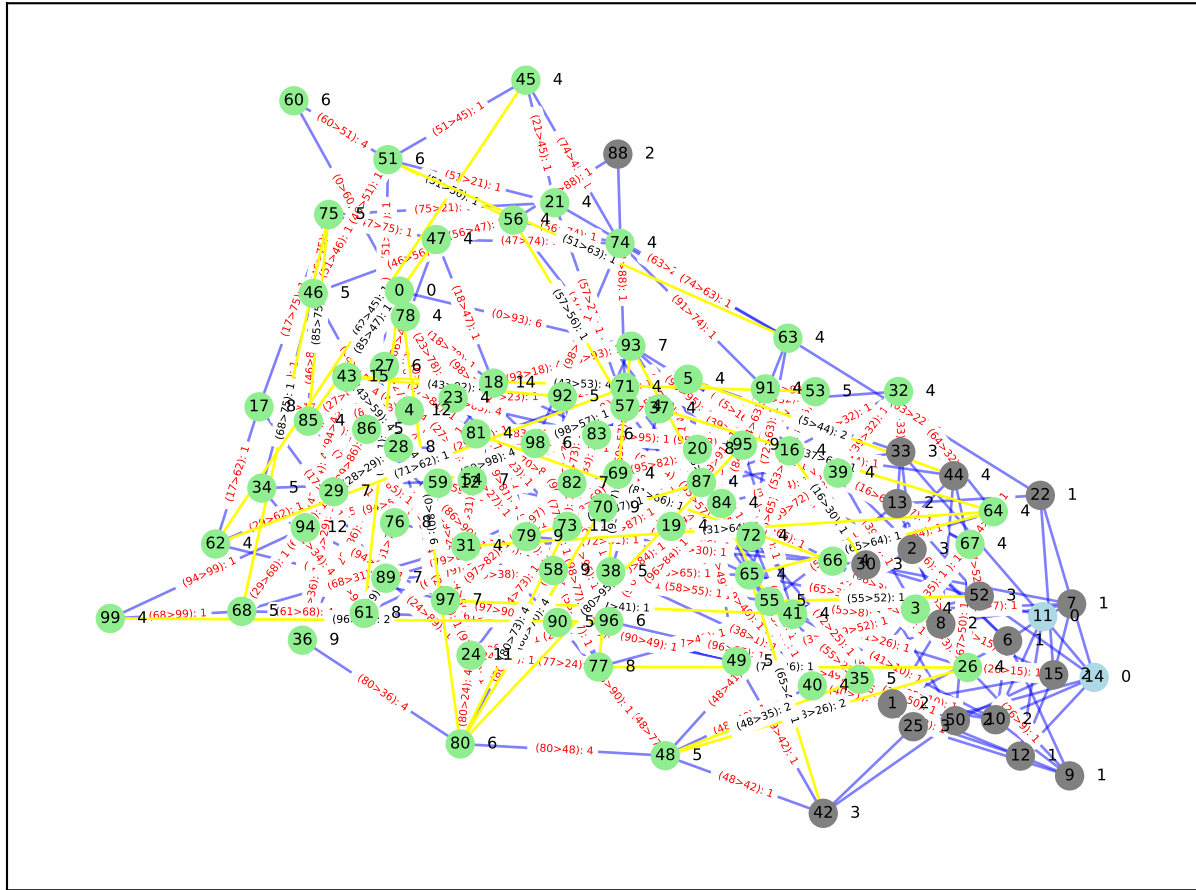

The graph consists of 100 nodes, each labeled with a number (1-100) and a value. The nodes are colored green, blue, or grey. The edges are colored blue, yellow, or red and are labeled with mathematical expressions. The graph is highly interconnected, with many cycles and clusters. The nodes are arranged in a roughly circular pattern, with some nodes at the center and others on the periphery. The edges connect nodes in a complex, non-linear fashion, creating a dense network of relationships.
